

PRENTON PRIMARY SCHOOL

LEARNERS' PROFILE—DEVELOPING YOUNG MINDS

Believe to Achieve

At Prenton Primary School we aim for every child to become:

Inquirers

We shall nurture curiosity, developing skills for inquiry and research. They will know how to learn independently and with others, to learn with enthusiasm and sustain a love of learning throughout life. We shall aim to prepare our children to be confident, happy people who can contribute to our local, national and global communities in our increasingly connected world.

Knowledgeable

They shall develop and use understanding, exploring knowledge across a range of disciplines. They will engage with issues and ideas that have local and global significance.

Thinkers

They shall use critical and creative thinking skills to analyse and take responsible action on complex problems and exercise initiative in making reasoned, ethical decisions.

Communicators

They shall express themselves confidently and creatively in more than one language and in many ways. They will collaborate effectively, listening carefully to the perspectives of other individuals and groups.

Principled

They will act with integrity and honesty, with a strong sense of fairness and justice, and with respect for the dignity and rights of people everywhere, taking responsibility for their actions and their consequences.

Open-minded

They shall critically appreciate our cultures and personal histories, as well as the values and traditions of others and seek and evaluate a range of points of view, and are willing to grow from the experience.

Caring

They will show empathy, compassion and respect with a commitment to service, and to act to make a positive difference in the lives of others and in the world around us.

Risk Takers

They will approach uncertainty with forethought and determination; work independently and cooperatively to explore new ideas and innovative strategies, be resourceful and resilient in the face of challenges and change.

Balanced

They shall understand the importance of balancing different aspects of our lives—intellectual, physical, and emotional—to achieve well-being for ourselves and others and recognize our interdependence with other people and with the world in which we live.

Reflective

They shall thoughtfully consider the world and our own ideas and experience. They will work to understand strengths and weaknesses in order to support learning and personal development.

We shall aim to prepare our children to be confident, happy people who can contribute to our local, national and global communities in our increasingly connected world.
